# 5<sup>TH</sup> GENERATION<sup>®</sup> Carpet Dye Pens

For the beginner or experienced carpet dyer wanting to fix bleach spots easily. Just heat and apply. No mixing. No mess. Permanent acid dyes will not wash out or rub off. Made for dyeing nylon, wool and silk fibers.

#### 4 Dye Pen Set:

- 3 Pen Pre-Determined Color Set
- Dye Remover
- Additional Bleach Neutralizer Needed

#### 5 Pen Homeowner's Kit:

- Includes choice of 3 Colors
- Dye Pen Remover
- Bleach Neutralizer

1. 20 Dye Pen Spot Dye Kit:
2. 40 Dye Pen Spot Dye Kit:
3. 60 Dye Pen Spot Dye Kit:

**Colors Available:** Specialty dye pens also available: Kool Aid Remover, Furniture Stain Remover, Dye Remover, and Bleach Neutralizer

# Professional Kits

## Beginners Spot Dye Kit

K-600

- This kit contains 12 liquid colors, Bleach Neutralizer, Dye Set Penetrant, pH Stabilizer, Fiber ID Solution, CR- 2 Stain Remover, mixing cups, applicator, brush, manual and carrying case.

## Professional Spot Dye Kit

K-800

- Be prepared for any spot dyeing job or full room estimate with this comprehensive kit. Includes 40 powder colors, Bleach Neutralizer, Dye Set Penetrant, pH Stabilizer, Fiber ID Solution, CR- 2 Stain Remover, mixing cups, applicator, brush, manual and deluxe carrying case.

## Ultra Professional Spot Dye Kit

K-900

- Used by carpet inspectors, this kit contains the same colors and chemicals as professional kit, plus everything needed to do side match jobs: Hand towels, duct tape, thermometer and hot pot.

## Superior kit

K-1000

- Developed by a master carpet dyer, this kit includes everything in the professional kit (40 powder colors etc.) as well as a deluxe rolling case, steam iron, compact blow dryer, duckbilled scissors, extra bleach neutralizer, dye pen remover & pippets. Takes all the guesswork out of putting together a new kit if you are just beginning in the dye business.

## Fiber ID Test

FA-300

- Identify all types of fibers in seconds. 3 bottle kit contains chemical test for identifying nylon, wool, and stain-resistant nylon, plus burn chart and holding clip for identifying all types of fibers.
- Single bottle of formic ID solution also available.

# Carpet Dyeing Chemicals

Available in:

● = liquid

● = powder

## Bleach Neutralizer

- Neutralizes chlorine bleach on contact and stops its chemical reaction with carpet fibers and carpet dyes. Must be used any time a bleach spot is re-dyed. 1 lb. powder makes 1 gallon concentrate. Concentrate can be diluted 1:1 with water.

- quart – BN3
- gallon – BN7
- 1 lb. – BN1
- 5 lb. – BN5

## Dye Set Penetrant

- Required on all dye jobs to insure maximum penetration and bonding between dye and carpet fibers. Contains wetting agents, penetrators, leveling agents, and low temperature dyeing agents to insure uniform and professional results.

- quart – DSP3
- gallon – DSP7

## pH stabilizer

- Lowers the pH of carpet fibers and solutions. Required for high pH cleaners and stain resist carpets. Eliminates brown-out and high alkaline problems. 1 oz. per gal. lowers pH 2-3 points. 1 lb. powder makes 1 gallon liquid concentrate.

- quart – PH3
- gallon – PH7
- 1 lb. – PH1
- 5 lb. – PH2

## One Step Dye Prep

- Contains both dye set penetrant & pH adjuster in one easy step. Saves both time and money and is suggested for use while spot dyeing.

- quart – OSP3
- gallon – OSP7

## Liquid Dye Remover

- A must have for all spot dye jobs. Lightens and removes all non heat-set dye regardless of time on carpet. This includes dye bleeds and old or incorrect spot dye jobs. Will not affect heat-set dyes that are originally in carpet. Ideal for blending dyes during spot dye jobs or correcting side match color problems.

- pen – LDRX
- pint – LDR4

# Carpet Dyeing Chemicals

Available in:

● = liquid

● = powder

## CR-2

- Removes stains and unwanted carpet dye. Separate from other reducing agents because of its powder form that can be made stronger as needed. Lightens or removes impossible stains like furniture stains, Kool-Aid, red wine, grass, chocolate, brown stains and spilled carpet dye. Requires steam iron, moist towel and ammonia.

● 4 oz. – CR141

● 1 lb. crystals – CR2

## CR-3

- Advanced color and stain remover that is excellent for removing dye bleeds on fine wool rugs, furniture stains and other transferable dye stains. Use on wool, silk, cotton, rayon, polyester, olefin or nylon to remove fugitive dyes, food stains or spilled carpet dye. Requires steam iron, moist towel and either white vinegar or acetic acid.

● 4 oz. – CR141

● 1 lb. crystals – CR3

## Dye Fix

- Prevents dye transfer, walk-off and bleeding. Recommended for Oriental rugs and upholstery prior to wet water cleaning. Available in nylon & wool or cotton & rayon. Makes 4 gallons. Dilute 1:3 with water.

Nylon & Wool:

● gallon – DF7-1

Cotton & Rayon:

● gallon – DF7-2

## Furniture stain remover

- This specially formulated pen does wonders on hard to remove furniture stains. No need to heat, just shake and apply directly to stain. Will not damage original color of carpet. This one of kind product is ready to use.

● pen – FSRX

● pint – FSR4

# Carpet Dyeing Chemicals

Available in:

● = liquid

● = powder

## Carpet Shiner

- Gives shine to any color, carpet fiber or fabric. Intensifies and brightens original color. Can be mixed with cleaning and dyeing solutions or just mixed with water and applied as a topical spray. 20 oz. makes 160 gallons brightener.

● 20 oz. – AM2-29

● 5 lb. – AM5-29

## Snow White Brightener

- Makes whites look whiter by covering the dingy. Engineered for white and off-white carpets. Hides yellowing and graying. Mix with water and apply as a topical spray. 20 oz. makes 10 gallons full strength.

● 20 oz. – AM2-30

● 5 lb. – AM5-30

## Odor-out

- Kills odors, on contact at their bacterial source. Fast acting, safe and economical. Works on pet, smoke, food and body odors. 1 pint super concentrate makes 2-1/2 gallons.

Super Concentrate:

● pint – OR4-C

● gallon – OR7-C

Reg. Concentrate:

● gallon – OR7-R

## Oxygen Bleach / Color-Safe Carpet Bleach

- Breaks down heavy grease and soil deposits. Eliminates yellowing and brown-out problems. Will not bleach out permanent colors or harm carpets or fabrics that are colorfast. Use as pre-treatment or in cleaning solution at rate of 1-2 Tbsp. 2 Tbsp. in 1 gallon of water has same oxygen release as 40% peroxide.

● 5 lb. – XB5

# Carpet Dyeing Chemicals

Available in:

● = liquid

● = powder

## Liquid Wall Guard

- Keeps dye from walls, floors and equipment. Use with trigger sprayer and mist lightly on wall. Keep wet for best results. Dye will easily wipe off walls. Contains no chlorine.

- quart – LWG3
- gallon – LWG7

## Traffic Lane Cleaner & Pre-Spotter

- Concentrated cleaner that dissolves grease, grime, oil and stubborn stains on contact. Can be used as a pre-spray or added to a cleaning solution. 1 gallon makes 128 gallons of prespray or 250 gallons of enhanced cleaning solution.

- 1 gallon – TL7
- 5 gallon – TL77

## Carpet & Upholstery Spotter with Deodorizer

- Contains a powerful deodorizer to deodorize as it cleans. Removes pet urine stains and odors. Dissolves adhesives, make up, wax, tar, varnish and gum. Safe to use on colorfast materials.

- gallon – US7

## Lo Foam Extraction Powder

- For a fraction of the cost this powdered formula will out-perform any comparable product on the market. Contains special blend of surfactants, wetting agents, anti-soiling agents, optical brighteners, ph buffers, water softeners and fragrance. Use 1 Tbsp. per gallon.

- 5 lb. – LF5

## Kool-Aid & Food Stain Remover

- Substitute for "Red Out". Removes Kool Aid, food stains and fresh dye in seconds without affecting the original dye in the carpet or fabric. Requires steam heat. No odor.

- quart – KA3
- gallon – KA7

# Education & Equipment

## Spot Dyeing & Full Room Carpet Dyeing Manual With 2 DVDs

MI-20

- The most complete and concise manual on the subject. Includes color charts, history, dye formulas, solutions to specific problems, step-by-step procedures, marketing information, etc. These manuals are used in dyeing seminars. Manual and dvd's included in Spot Dye Kits.

## Dye Master's Color Guide With Gray Scale & DVD

MI-30

- Gives you the ability to mix, match, and create over 1,000,000 different shades of color by overlaying colored slides containing the primary, secondary and tertiary colors in 21 different levels of intensity. Takes all the guess work out of spot dyeing, color restorations, color changes and dye formulas.

## Portable Dye Machine

- Time-saving and efficient. Dye carpets in all locations using this special machine. Twenty gallon holding tank with quick connect, dump valve, 2-100 PSI pumps. 1725 watt heater, casters and handle. One 25 ft. cord, 115 volts/UL approved. Options Available.

## Dual Clean & Dye Machine

- Heavy duty fiber composite body with stationary handle. Two 100 PSI pump Flow rate 3.2 (gpm). 120 volt AC with 14 amperes. 50-foot solution hose. 20 gallon solution tank. Stainless Steel Lid Dye gun. Non-marking swivel caster. 25-foot 12-3 electric power cord. Electric tank heater with pre-set thermostat. Shipping weight 70lb.

## Complete Airbrush Kit

- Dye fine rugs and carpet faster with this portable airbrush set with compressor. Dual action airbrush set with 3 different size nozzle choices (0.2, 0.3 & 0.5). Compressor comes with adjustable PSI and pressure regulator with filter and moisture trap. Also includes 2 air brush hoses, one deluxe for flexibility and glass dye cup.

## Deluxe Spray Wand

- Developed for carpet dyers. Gives years of trouble-free use. Removable head permits changing of spray tips. Greatly reduces dyeing time and production costs. Insulated handle.

Americolor Corp. brands include:

## 5<sup>TH</sup> GENERATION<sup>®</sup>

### Important Tips:

- Carpet dyes are for use on Nylon, Wool and Silk Carpets only
- Dyes must be mixed and used HOT - above 150°. Reheat dye bath as necessary to retain proper temperature
- Always use plenty of Bleach Neutralizer on bleach spots
- Dyes are for discolorations only (not stains). You can only dye darker with dyes
- Use proper chemicals in every dye bath large or small. One Step Dye Prep contains both needed chemicals Dye Set Penetrant and PH adjuster
- Additional pH adjuster may be needed to ensure that carpet fibers are on acid side of ph scale between 2-4

### Carpet Dyeing Courses

- IICRC Certification & 1 day non-certified available
- Offered virtually and in person. Public & Private
- Learn Color Theory - Basic & Advanced
- Fix Bleach Spots & Urine Discolorations
- Perform Rug Restoration with an Airbrush
- Learn Full Room Dyeing Procedures
- Shading & Feathering Techniques
- Marketing techniques for your new dye business
